PROFILE (Reach Me)

I am a highly skilled Mern Developer with a proven track record in developing and implementing complex web applications. I excel in collaborating with cross-functional teams, troubleshooting and resolving technical issues, and delivering high-quality code. I am committed to continuously expanding my knowledge and staying up-to-date with emerging technologies. I am seeking a challenging position where I can utilize my skills and contribute to the success of a dynamic organization. Please advise on how I can optimize this information to make it more impactful on my CV.

PROJECTS

WEATHER APP (Link)

- Weather application developed using HTML, CSS, and JavaScript
- HTML used for structuring web content
- CSS employed for enhancing visual aesthetics and styling
- JavaScript utilized for creating dynamic and interactive features
- Leveraged API calls to access real-time weather data
- Ensured users have access to accurate and up-to-date weather information

STUDY NOTION APP (ongoing)

- Designed and built "Study Notion," a student-focused project.
- Employed React, Express, MongoDB, and Node for development.
- Implemented secure authentication and data visualization features.
- Ensured seamless communication between frontend and database.
- Collaborated effectively in a team environment.
- Delivered a reliable and impactful educational tool.

TRIP PLANNER "SAATHI" (Link)

- Travel app built exclusively using Java Swing and AWT packages
- Created a database of various hotels and their unique travel packages
- Implemented a user-friendly interface with Java Swing for easy navigation
- Designed distinct packages for each hotel within the app

ACHIEVEMENTS

Cleared Level 1.1 Flipkart Grid 5.0

It was a challenging MCQ round featuring ecommerce trivia and a mix of Tech topics , including Technology Awareness , Techstack , and Computer Science Fundamentals . Looking Forward to the next Stages

Social Service

Supporting an NGO for thier Data Management and some others website stuff sometime . "Finding immense fulfillment in offering free data and website management support to empower an NGO's mission."
